

La Dynamique des Inégalités et leur perception The Dynamics of Inequalities and their Perception

Starting Workshop

23rd January 2014 Thursday
Room A, Vieille Charité Marseille

The aim of this workshop is to start formally the research project Dyniper. The method will be to present papers written by members of the team, not necessarily finished and to initiate discussions. The average presentation will be 45 minutes in the morning and 40 minutes in the afternoon. The name of the speaker is given on the program. The discussion is supposed to be led by the persons related to that particular field of research, as mentioned in the list below each paper. I expect a discussion of around 15 minutes around each paper, perhaps a bit shorter in the afternoon. A general discussion will close the scientific part of the workshop at the end of the afternoon.
